---

## Summary

Frontend Developer with 1+ year of professional React.js experience (plus freelance & academic projects), familiar with Vue.js, and strong focus on building responsive, high-performance UIs. Skilled in **React.js, Redux Toolkit, Context API, and state management**, with a strong eye for UI/UX using **Figma** and smooth animations with **Framer Motion**. Proficient in modern frontend workflows with **Vite, Webpack, Git/GitHub**, and passionate about delivering clean, reusable code and real-world solutions. Immediate joiner.

---

## Experience

**Junior React.js Developer** – Ai Pixels (*Feb 2025 – Apr 2025*) | Lahore

- Developed reusable UI components in React.js, Redux Toolkit, Context API, and Tailwind CSS, cutting code duplication by 25%.
- Integrated REST APIs for real-time data handling and optimized client-side performance.
- Ensured responsive, cross-browser compatible UI across desktop and mobile devices.
- Collaborated with designers via Figma for pixel-perfect UI implementation.

**Frontend Developer Intern** – SSSoftech Ltd (*Jun 2024 – Jan 2025*) | Lahore

- Contributed to the **Doctor Scheduling System**, enabling appointment booking and filtering that reduced manual scheduling work by **30%**.
  - Applied **Git-based workflows** for version control and team collaboration
- 

## Projects

**E-commerce Web Application – React.js, Redux, Tailwind CSS**

- Built product listing, filtering, and cart features with state management using **Redux Toolkit**.
- Improved performance and responsiveness with optimized reusable components.

**Sahab Company Website – React.js, Tailwind CSS, Firebase**

- Developed a dynamic business website with **Framer Motion animations**.
- Integrated Firebase for form submissions and data handling.

**Autism Center & Pharmacy Web System – React.js, Tailwind CSS, Firebase, Vercel**

- Designed dashboards for fee tracking, salary management, and inventory.
  - Used **Context API** for real-time updates across multiple devices.
  - Hosted on **Vercel** for fast deployment and scalability.
-
